

JĘDRZEJ RYNECKI

Junior Java Developer

DETAILS

Warsaw
501 504 039
jedrzejrynecki@gmail.com
<https://www.linkedin.com/in/j%C4%99drzej-rynecki-7aabb2239/>
<https://github.com/JedrzejRy>

TECHNICAL SKILLS

- Java
- Spring
- MySQL Database
- IntelliJ IDEA
- error reporting
- Jira
- Postman (API)
- Thymeleaf

SOFT SKILLS

- **Flexibility** - I'm open to taking on new tasks and adapting to changes.
- **Teamwork** - I quickly find myself in a team and focus on achieving the goal.
- **Prioritization of tasks** - I efficiently determine the order in which tasks should be completed.

LANGUAGE

- English - B2

INTERESTS

In addition to programming, I am interested in history, sociology, and social media. In high school, I completed, as one of the youngest participants in Poland, a glider pilot course.

In programming I'm passionate about the possibility of creating new solutions! My experience in the analytical area has made me not afraid of large, absorbing projects, and I easily adapt to changes. I completed the "Java from scratch" course where I acquired skills enabling me to write clean code in this language. I can also boast of my first mini project using the Spring framework. I'm creating and testing an application to automate work in my free time, I'm reading literature on good practices such as "Clean Code. A Handbook of a Good Programmer", and I'm taking part in English for Business webinars conducted by Weronika Sokółowska.

IT PROJECT

Project of a simple auction service where you can set up your own auctions and bid on items listed. Written in Java and HTML using Spring and Thymeleaf.
